Objective

Flutter Mobile Developer with experience in building responsive, high-performance apps. Seeking opportunities to contribute to innovative mobile projects and enhance my skills in a dynamic team environment.

Experience

Amen Bank | Mobile Developer Intern   **06/2024 - 08/2024**

[Video Showcase](#)

- Developed AmenSwift, a fully functional mobile banking app, from design to front-end and back-end implementation using Flutter and Firebase.
- Collaborated with the bank's IT team to ensure seamless integration of banking features, including account management, transaction history, and card blocking.
- Designed the app's user interface with Figma, ensuring a smooth and responsive user experience.
- Gained in-depth knowledge of the banking system, security protocols, and financial transaction processes.
- Implemented Firebase for user authentication, real-time data storage, and secure transaction handling.

Education

Higher Institute of Computer Sciences, BS Computer Science   **2023 - 2026**

Major: Computer Science | Minor: Information Systems

Skills & abilities

• Flutter / Dart	• Java	• Scrum
• Firebase	• MVVM	• Problem Solving
• OOP	• Bloc / Cubit	• Git / Github

Certificates

[Complete Flutter & Dart Development Course [Arabic]](#) **| Udemy | 05/2024**

[Master Flutter: Responsive & Adaptive UI Design](#) **| Udemy | 07/2024**

[Flutter Advanced Course Bloc and MVVM Pattern [Arabic] [2023]](#) **| Udemy | 07/2024**

Projects

Personal Project | Quiz Application   *03/2024 – 04/2024*

GitHub Link

- Developed a quiz application using Flutter to test users' knowledge across various topics.
- Implemented multiple quiz categories, customizable settings, user profiles, a leaderboard and sound effects.
- Integrated API services to fetch quiz questions dynamically.
- Collaborated with a designer to refine UI/UX elements and translate concepts into functional features.
- Leveraged Firebase for user authentication and data storage.
- Demonstrated effective communication and collaboration skills throughout the project.

Personal Project | Meals Application   *02/2024 – 03/2024*

GitHub Link

- Designed and implemented a meals application using the Flutter framework.
- Integrated API services to retrieve and display dynamic recipe data.
- Conducted thorough testing and debugging to ensure smooth functionality across various devices.
- Independently managed the entire project lifecycle from ideation to execution.
- Successfully balanced project deadlines and university coursework.

Volunteer

Codex Club (Junoir Entreprise) | Senior Flutter Team Member   **09/2024 - Present**

- Lead the development of Flutter-based projects and mentor junior developers.
- Collaborate with the club's executive team to plan and execute technical workshops.
- Assist in organizing events to promote mobile app development among students.
